Transform the way you handle customer payments

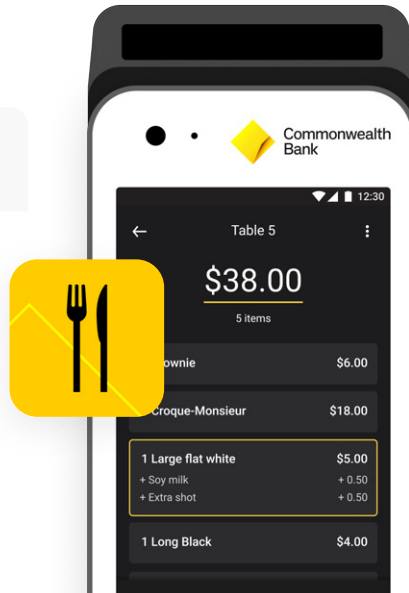

The new Smart Hospitality app will transform the way you handle customer payments.

Cloud-based POS integration*

Increase tipping opportunities

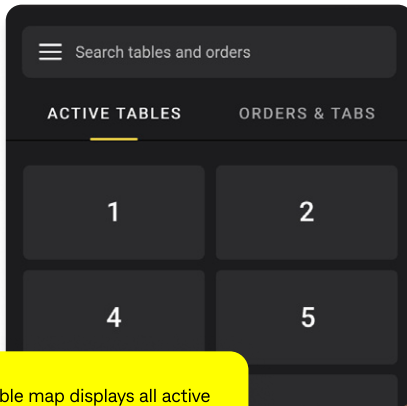

Increase productivity & decrease errors

Split billing made easy

Take payments from the table

With Smart Hospitality, orders flow to your Smart Terminal, reducing human error. No more running back to the POS to update customer orders.

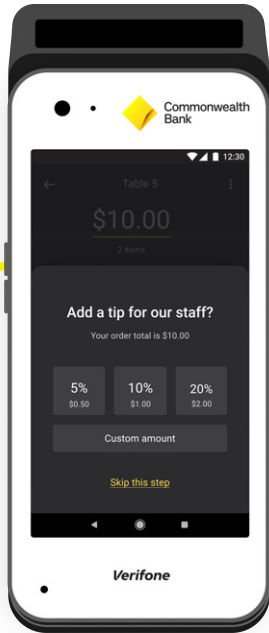

A table map displays all active tables within your venue

Split bills by specific item*, amount or number of people

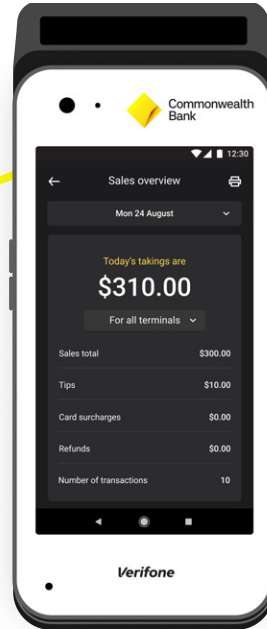

Increase tipping opportunities

Each customer can leave a tip for their share of the bill, so the tips are not lost in the payment process.

You can also customise the tip percentage amounts displayed on each terminal.

Sales report at the tap of a button

A comprehensive, one-touch Sales Overview report makes end of day effortless.

You can generate figures for your whole venue from a single terminal at the touch of a button.
